

Product care and cleaning.

Duroclass products are easy to clean and maintain. We recommend routine cleaning with generic non-abrasive household cleaning products or natural detergents and to wipe clean with a soft damp cloth or sponge.

- ✓ Natural detergents and cleaners

- ✓ Generic cleaners and domestic chemicals

- ✓ Resistant to everyday use, stains and cosmetics

Stubborn stains can be treated by gently rubbing the stain with a surface cleaner and non-abrasive cleaning pad and water. Avoid contact with strong chemicals such as paint removers, acetone, oven cleaners, hair dyes, and other strong chemicals.
